

14th International Workshop on Boosted Object Phenomenology, Reconstruction, Measurements and Searches in HEP

Second Bulletin

The BOOST 2022 conference will provide a forum for experimentalists and theorists to present and discuss the latest experimental results and theoretical advancements on jet reconstruction, phenomenology of boosted objects and their use in analyses at high energy particle colliders. We are very happy that BOOST 2022 will be held in person at Hamburg, Germany, on August 15-19, 2022:

<https://indico.cern.ch/e/BOOST2022>

Call for abstracts

Please note that the closing date for abstract submission is 15 June 2022. Please contact us if you were planning to submit an abstract but missed the deadline.

Conference fee and registration

Registration is open! The conference fee is 350 Euros for early-bird registration (payment before July 15) and 400 Euros for payments later than that. Payments are possible with credit card or bank transfer. Please contact the Local Organizing Committee if you need help with the payment. If you are not able to travel to Hamburg because of travel restrictions, please contact us as well.

Accommodation

We have reserved a limited number of rooms for a special price at the Mercure Hotel Hamburg Mitte. More information can be found at the conference webpage under "Travel and accommodation".

Corona regulations and hygiene measures

The organizers are very confident that the HEP community will come back to meet in person after the pandemic state of emergency. The present plan foresees a format with a substantial in-person participation, together with the possibility of a fruitful remote participation for people living in areas still heavily affected by travel restrictions. The Local Organizing Committee, together with the local authorities, will put in place all necessary measures to guarantee a safe and welcoming environment for all attendees. The pandemic evolution will be constantly monitored and possible adjustments in the conference format will be promptly communicated.

Important dates

Abstract submissions possible until: **15 June 2022**

Contribution acceptance notification no later than: **1 July 2022**

Early bird registration until: **15 July 2022**

Registration deadline: **1 August 2022**

Conference dates: **15-19 August 2022**

Contact and support

You can reach us at boost2022-loc@desy.de. Do not hesitate to contact us for additional information and support you may need for attending BOOST 2022. We are looking forward to welcoming you in Hamburg in August!

Please feel free to forward this announcement to other interested colleagues.

Best regards,

Andreas Hinzmann and Roman Kogler for the Local Organizing Committee

We are very grateful for the support by the University of Hamburg's Cluster of Excellence "Quantum Universe".
