

40th Anniversary of the First Proton-Proton Collisions

in the CERN Intersecting Storage Rings (ISR)

Colloquium January 18th, 2011 at 14:30 CERN Council Chamber

Programme

Design and Construction of the ISR, Kurt Hubner

Physics at small angles, Ugo Amaldi (IFERA-Novara)

The Impact of the ISR on Accelerator Physics and Technology, Philip J. Bryant

Physics at high-transverse momentum, Pierre Darriulat (VAFY-Hanoi)

Concluding remarks, Rolf Heuer
