

# XXV DAE-BRNS High Energy Physics Symposium 2022

Contribution ID: 791

Type: Minireview Talk

## B anomalies: an experimental perspective

*Thursday 15 December 2022 15:00 (25 minutes)*

A review of results related to the so called B anomalies is presented. The results come both the e+e- B factories and LHC. The talk concludes with a discussion of some the recent results from Belle II experiment related to anomalies.

### Session

Quark and Lepton Flavour Physics

**Primary author:** LIBBY, James (Indian Institute of Technology Madras (IN))

**Presenter:** LIBBY, James (Indian Institute of Technology Madras (IN))

**Session Classification:** WG8 - Quark and Lepton Flavour Physics
