This Marie Skłodowska-Curie Action (MSCA) Innovative Training Networks (ITN) receives funding from the European Union's H2020 Framework Programme under grant agreement no. 861198

Agenda

- Welcoming new members of the TO
- Follow-up from previous meeting
- Update on events
 - Summer schools
 - Jena's training
- Emerging questions on ESRs & Affiliates
- Varia/AOB

Members of the Training Office

- Thomas Cocolios, KU Leuven
- Bruce Marsh, CERN
- Korbinian Hens, Hubner-Germany
- Isabelle Fontaine / Sonia Allegretti, CERN

- Nathalie Lecesne, Ganil
- Anastasia Borschevsky, RUG
- Stephan Fritzsche, GSI

LISA Training program

➤ **Summer School 1: Structure of Complex Atoms GANIL, 28 August - 9 Sept 2022**

Lectures in atomic physics by Mariana Safronova (University of Delaware, USA), atomic spectroscopy by Michael Block (GSI), and laser systems by Wim Ubachs (VU, The Netherlands). Complementary soft skill training on intellectual property, entrepreneurship, and commercialisation through lectures, workshop activities and panel discussions by Fiona Reid (University College London, UK). Targeting the ESRs and up to as many external students for 5-7 days in the North of the Netherlands. All participants take part in a poster session.

- **Specialized Training 4: JENA** - Advanced Computational Techniques. Short introduction to various computing models and framework followed by extensive workshop activities and practical work with computer simulation. Themes ranging from atomic and nuclear structure theory, to equipment modelling and design (gas flow, electrodynamics). Complementary soft skill training on project management and quality management. For the ESRs and other students close to the network, 4 days in Jena (Germany).

Emerging questions

- ESRs & Affiliates
- Varia/AOB
- ✓ Ongoing refunding for the [LISA Winter School \(15-February 20, 2022\)](#)
