Antoine was kind enough to make us a poster!

Welcome

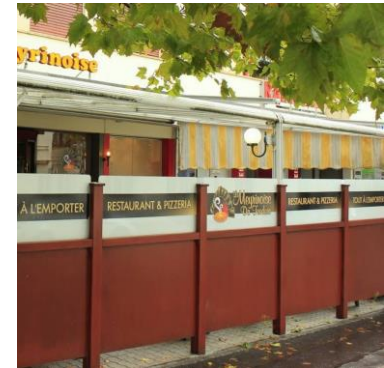

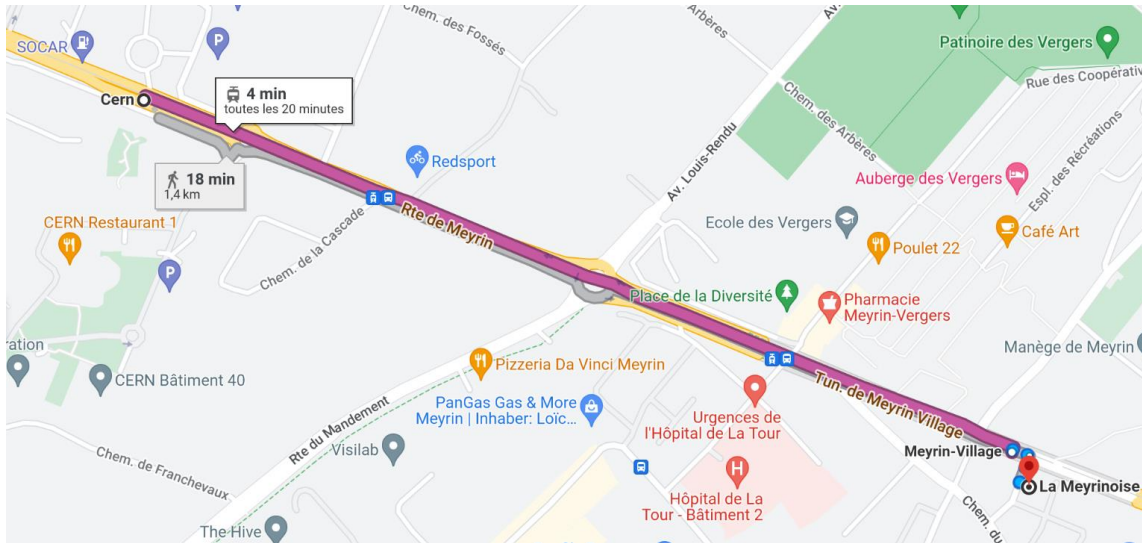

- Welcome to the first AIDAInnova Software Hackathon
- After a difficult start to AIDAInnova, due to the pandemic, we thought that it would be a great idea to work together in person
- We are happy that so many of you managed to make it
 - Especially people who travelled to be here

- We will hear from each of the task leaders about topics that we shall be tackling in the next three days
 - Rough planning is in this [Google Sheet](#)
 - We will try and keep [Indico](#) up to date with who is meeting where
 - Task leaders, it's most efficient if you edit Indico directly
- However, the time is ours, so we consider this to be a starting point and we maintain the agility to use the time as usefully as possible
 - Feel free to use the rooms we have, jump into offices, go for coffee, ice cream, ...
 - Simply address interesting topics as they come up ...

- Rooms for today and tomorrow are here on the main campus
- On Thursday we have use of the [IdeaSquare](#) space
 - Across the road from main Gate B entrance

- The hackathon dinner is at La Meyrinoise Pizzeria, **Wednesday at 7.30pm**
- Getting there takes a few minutes by tram, a few more by bicycle or 15-20 minutes walking
