

# Schedule constraints & proposal

- Corentin available on Thursday (& Friday) for autotuning
- ATLAS Muon SW event on Wednesday & Thursday
  - Local ACTS team is only available for long sessions **today**
- Proposal :
  - **Today, use common room for Key4hep + Tracking**
    - Allows ACTS CERN team to go where most needed
  - Wednesday, AFAIK it will be mostly me ? Do I need a room ?
  - Thursday, find time away from muons for autotuning

# Tracking proposals

- **Detray performance profiling** (JN, HG) → **Today**
  - A recent change hurt runtime performance, understand why
- **Acts-Key4Hep integration** (Key4hep, FG, PG/AS) → **Today**
  - Make DD4hep expose what ACTS needs
- **Build performance optimization** (PG, HG) → **PG part today**
  - Prepare HSF talk + work on automation/tooling
- **Autotuning discussion** (CA, AS, PG, HG) → **Thursday**
  - Integration, generalization, and next steps
