DMAPS activities of the PSI high energy physics group

Friday, 24 June 2022 09:00 (20 minutes)

The high energy physics group of PSI is involved in the CMS experiment. Since 2018 the group is also gaining experience in monolithic devices. This talk gives a summary of the group's DMAPS activities.

Primary author: ROHE, Tilman (Paul Scherrer Institute (CH))

Presenter: ROHE, Tilman (Paul Scherrer Institute (CH))

Session Classification: Monolithic devices
