Rutgers University
November 1-4

Closing
David Shih

We made it to the end!

Thanks to

- **Speakers**
- **Participants**
- **Organizers**
- **SAS-IT – James and Dayna**
- **LSC staff – Anthony, Naquan, Tim, Antonio + teams**
- **Volunteers – Anna, Eric, Ranit, Mitch, Ed, Nico**

Very special thanks to

- **Ben Nachman**
- **Christina Pettola, NHETC administrator**

ML4Jets will return...

a hamburger wearing a labcoat giving a lecture in front of a large audience, pencil drawing and watercolors

The sixth ML4Jets will take place in-person in winter 2023/2024 in Hamburg (Germany) hosted by Universität Hamburg and DESY.

Following the successful ML4Jets template:

- great talks and the latest from ML & particle physics
- in-person speakers and discussion
- no / very small basic attendance fee

Details to be confirmed early 2023 but two options exist:

- DESY campus ~1 year from now (e.g. 6-10.11.2023)
- City-center campus of the university in ~February 2024

We will let you know via the usual channels when the final decision has been made (expect early 2023).

Looking forward to see you in
Hamburg!

Local organisers:

Freya Blekman

Frank Gaede

Andreas Hinzmann

Gregor Kasieczka (chair)

Matthias Schroeder

We are accepting proposals for future ML4Jets

Please contact the IAC if you are interested!

Thanks everyone for coming!

Wishing you a safe journey home
