

Nurturing Girls in Ghana in the Mathematical Sciences

Wednesday 7 September 2022 15:40 (40 minutes)

This talk will provide details on the Girls in Mathematical Sciences Program (GMSP), a public engagement program by the African Institute for Mathematical Sciences (AIMS) Ghana. The GMSP nurtures the talents of secondary school girls from across Ghana in the mathematical sciences. After almost 2 years of successful implementation, an overview of the program will be discussed.

I understand that submitted abstracts will only be considered from registered participants.
