A few final comments …

- We hope that this workshop can help to initiate new projects.

- We encourage all participants to suggest new and engage with existing initiatives via the Mattermost.

- Mattermost channels for special interest groups set up in the last workshop are still live.

- In addition to the Town Square (https://mattermost.web.cern.ch/sustainable-hep/channels/town-square), there is also a dedicated channel for general discussions related to this meeting (https://mattermost.web.cern.ch/sustainable-hep/channels/sustainable-hep-second-edition).

Here's to an interesting and engaging second day …
