Compute Accelerator Forum Introduction

2022-10-12

Ben, Graeme, Maria, Michael, Stefan

Compute Accelerator Forum - 12 October

- Welcome to today's Compute Accelerator Forum meeting
- Today we have a talk covering GNNs and FPGAs
    - *Accelerating graph neural network for jet tagging using FPGAs*, Zhiqiang Que (Imperial College London)
    - If this topic interests you, then look out next week for the **HSF Reconstruction and Trigger WG** meeting
        - *Tracking with Graph Neural Networks*, Charline Rougier (L2IT, Toulouse)
        - 16h CEST Wednesday 19 October, https://indico.cern.ch/event/1210410/
- CERN is also organising a Quantum Technology Conference, 1-4 November, that will cover quantum computing and algorithms
- Our next meeting will feature a talk from Meteo Swiss, on their experience porting codes to GPUs [TBC]
    - 8 November 2022, https://indico.cern.ch/event/1207847/
- As ever **if you would like to present or to propose a topic, please get in touch**
    - compute-accelerator-forum-organizers@cern.ch
