Chris Caron, Ph.D. Senior Publishing Editor Physics Editorial Department Springer Heidelberg

### **Springer in Short**

- Springer Science and Business Media: STM and B2B
- STM encompasses:
  - Architecture, Biomedicine/Life Sciences, Clinical and Professional Medicine, Economics/Statistics, Human Sciences, Mathematics/Computer Sciences, Physical Sciences/Engineering (includes geosciences and chemistry)
- Core strategy physical sciences etal.:
  - Publish must-have content
    - Journals
    - Major Reference Works
    - Graduate Textbooks
    - Monographs
    - Occasionally: popular sciences

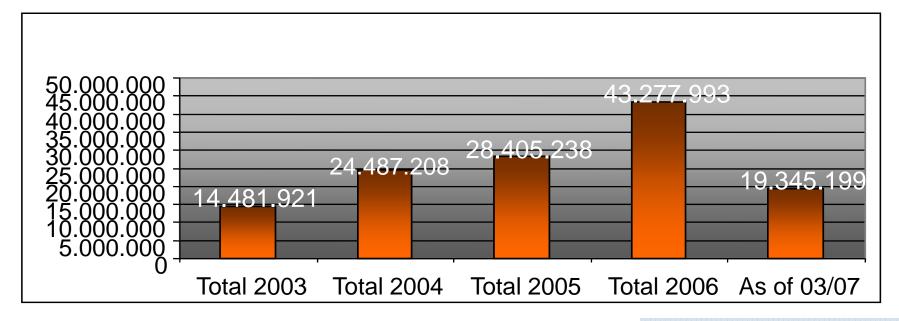

- some 1850 journals, close to 1600 in STM with just short of 10% of the total scientific paper output worldwide.
  - Some 300 journals added in 2006
  - About 25% is society content

- Some 5500 new book titles/year
  - Since 2004 complete digitization of book content
  - Since 2006 consortial-type e-book library packages

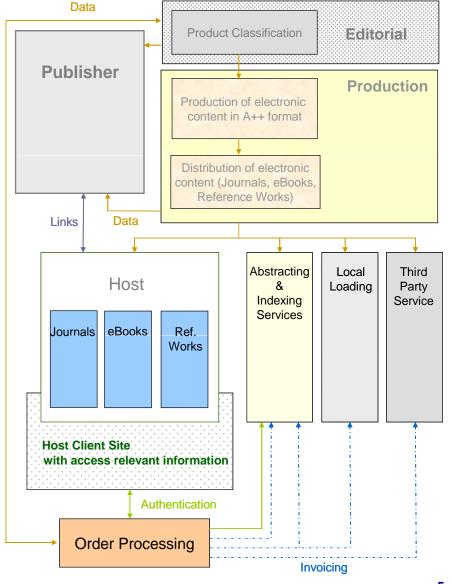

- Electronic platform: SpringerLink
  - 3.3 million articles/chapters from journals and books
  - 475.000 documents added in 2006
    - 2/3 from journals (including archives)
    - 1/3 from books (including major reference works)

## **Online Publishing Cosmos**

# **Springer – Physics Journals**

- The European Physical Journal (EPJ), A-E, ST
- General Relativity and Gravitation
- Foundations of Physics
- Journal of Experimental and Theoretical Physics (JETP)
- Astronomy and Astrophysics Reviews
- Communications in Mathematical Physics
- Few-Body Systems
- International Journal of Theoretical Physics
- Journal of Statistical Physics
- Physics of Particles and Nuclei

Springer

## The European Physical Journal (EPJ)

- EPJ A Hadrons and Nuclei
- EPJ B Cond. Mat. and Complex Systems
- EPJ C Particles and Fields
- EPJ D Atomic, Molecular, Optical and Plasma Physics
- EPJ E Soft Matter
- EPJ ST Special Topics (new)
- Structure of A and C adapted to the needs of a relatively small, well networked (e.g. through SPIRES) and special community (large collaborations):
  - Letters, Regular Articles, "Tools" and Scientific Notes, Reviews
  - OA models
