

## Jam Lambert U. Catenza

I am Jam Lambert U. Catenza from the Philippines. I took my bachelor's degree from the Philippine Normal University with a degree on Physics education (Magna Cum Laude). Just this June 2022, I graduated from the University of Santo Tomas with the degree on Master of Science in Applied Physics major in Medical Physics (Cum Laude). I specialized on artificial intelligence and machine learning on diagnostics.

I worked under the ATLAS experiment. My project is about the focusing capability of MPOs of X-ray photons and how pixel detectors characterize it.
