Non-Formal Physics Educational Activities Impact on Secondary School Students

Wednesday 5 July 2023 16:20 (20 minutes)

The article is devoted to the investigation of impact of the non-formal physics related activities on the target group of Lower and Upper-Secondary school students. Research was conducted on the basis of physics competitions, that run in Slovakia during the period 2022 –2023 with the application of the questionnaires based on the Informal Education and Outreach Framework.

How would you like to present your contribution?

Live in Košice (time slot to be allotted based on the programme)

Target education level (primary)

Upper-secondary education

Target education level (secondary, optional)

Lower-secondary education
