Discussion Workshop on “Physics and Society”

Tuesday 4 July 2023 16:00 (1h 30m)

Our group, in Athens and Thessaloniki, is researching issues related to the interconnection between Physics and society. We are also aiming at operating regularly the corresponding GIREP Thematic Group. Therefore, we call for such a Workshop Discussion, within the GIREP 2023 Conference. There, contributors who are interested in this field are asked to share their ideas, results, as well as to propose relative initiatives in the Context of GIREP. The outcomes of this Discussion Workshop would be of importance, we believe, towards the crucial scope of relating Physics' instruction to social issues and social problems, in all levels of education.
