Fidget spinner –a simple experiment and Java applet

Wednesday, July 5, 2023 4:00 PM (20 minutes)

Fidget spinner is a cheap toy which can be used as a teaching tool to demonstrate rotational motion. The goal of our study is to present simple fidget spinner experiment and a Java applet developed for theoretical investigation of the problem.

How would you like to present your contribution?

Live in Košice (time slot to be allotted based on the programme)

Target education level (primary)

Upper-secondary education
