Conducting a STEM career information day for the 8th grade in the form of a digital congress during the Corona pandemic

Wednesday 5 July 2023 14:45 (20 minutes)

An annual STEM career information day, organized by students for their classmates, was transformed into a digital congress format during the Corona pandemic. The face-to-face presentations were replaced by video conferences using the school's digital platforms. This subsequently allowed to invite foreign speakers, a German YouTube influencer as well as several HGV alumni, who shared their experiences from their first semesters at University. In the contribution we will give an overview of the activities of our Humboldt Academy for Science and Engineering course and show in particular the procedure of our digital STEM career information day.

How would you like to present your contribution?

Live in Košice (time slot to be allotted based on the programme)

Target education level (primary)

Upper-secondary education

Target education level (secondary, optional)
