IBL on physics lessons ... in the eyes of students

Wednesday 28 August 2024 10:50 (20 minutes)

In my school, I guided a pedagogical innovation, called: High school student as a scientific researcher. I chose one 1st class where I taught one out of four lessons per month using the IBL method., from October 2018 until April 2019. During the implementation, I conducted my Practitioner Inquiry to get the answer: How do students perceive IBL in physics lessons? I performed surveys, tests, and interviews with students. I prepared recordings of my lessons and analyzed student responses. During my presentation, I will present the results of these tests, my conclusions, and my recommendations for further work.

How would you like to present your contribution?

Live in Kraków (time slot to be allotted based on the programme)

Target education level

Secondary

Category

Formal Education

Primary author: SZYMURA, Małgorzata (Zespół Szkół w Czerwionce-Leszczynach)
