

Session Program

15-19 Aug 2022

DUNE Oscillation Analysis Workshop

Near Detector

CERN, 5/R-026

Monday 15 August

12:00

Near Detector: Sub-detector Introductions

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin | **Convener:** Daniel Cherdack

12:00-12:15

ND-LAr+TMS: Status of Samples and Systematics and Aims for the Workshop

Speaker

Andrew Mogan

12:15-12:30

Discussion time

12:30-12:45

SAND: Status of Samples and Systematics and Aims for the Workshop

Speaker

Matteo Vicenzi

12:45-13:00

Discussion time

13:00

14:30

Near Detector

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin

14:30-14:45

ND-GAr: Status of Samples and Systematics and Aims for the Workshop

Speaker

Patrick James Dunne

14:45-15:00

Discussion time

15:00

Wednesday 17 August

09:00

10:30

Near Detector: Sample prioritization discussion

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin

Thursday 18 August

15:30

Near Detector: Requirements

Session | **Location:** CERN, 222/R-001

17:00

15:30–16:00 **ND Design Requirements**

Speaker

Hirohisa Tanaka
