

Session Program

29 May 2023 to 2 June 2023

21st Conference on Flavor Physics and CP Violation (FPCP 2023)

CP violation in hadrons and leptons

IP2I - Lyon University, Amphi Dirac
Institute of Physics of the 2 Infinities 4 Rue Enrico Fermi 69100 Villeurbanne France

Thursday 1 June

12:00

CP violation in hadrons and leptons: I

Session |**Location:** IP2I - Lyon University, Amphi Dirac, Institute of Physics of the 2 Infinities 4 Rue Enrico Fermi 69100 Villeurbanne France

12:00–12:30

Experimental review of nEDM measurement

Speaker

Chen-Yu Liu

12:30

14:00

CP violation in hadrons and leptons: II

Session |**Location:** IP2I - Lyon University, Amphi Dirac, Institute of Physics of the 2 Infinities 4 Rue Enrico Fermi 69100 Villeurbanne France

14:00–14:30

CP violation in B-decays, CKM tests, D-Dbar, etc

Speaker

Alexander Lenz

14:30–15:00

Strong CP problem vs flavor experiments

Speaker

Diego Redigolo

15:00–15:30

New time-dependent CPV measurements at e+e- experiments

Speaker

Justin Skorupa

15:30–16:00

New CPV measurements at LHC

Speaker

Valeriia Lukashenko

16:00
