

Session Program

9-13 Jul 2023

CEC/ICMC 2023 Abstracts & Technical Program

M2Po2D: Metallic, Ceramic, Composite and Polymeric Materials III

Hawaii Convention Center

Monday 10 July

14:00

M2Po2D: Metallic, Ceramic, Composite and Polymeric Materials III

Poster Session | **Location:** Exhibit Hall III, Level 1 | **Conveners:** Robert Walsh, Chris Kovacs

M2Po2D-05: The Low-temperature Thermal Properties of Epoxy Resin Composites Enhanced by Graphene and Modified Alumina Hybrid Fillers

Speaker

Yue Xiang

M2Po2D-01: Characteristics of Laminates with Magnetic Properties for Motor Slot Wedges and Other Applications at Cryogenic Temperatures

Speaker

Anna Krzak

M2Po2D-04: Effect of annealing heat treatment on the low-temperature mechanical properties of high entropy alloy CoFeCrNiAl_{0.05}Ti_{0.05}

Speaker

Mingyue Jiang

M2Po2D-02: Mechanical Properties and Damage Development in Glass Fiber/Epoxy Laminates Subjected to Tensile Loading at Sub-zero Temperatures

Speaker

Ms Anna Krzak

16:00
