

Session Program

9-13 Jul 2023

CEC/ICMC 2023 Abstracts & Technical Program

M1Po2D: Cryogenic Materials Testing and Methods I

Hawaii Convention Center

Monday 10 July

14:00

M1Po2D: Cryogenic Materials Testing and Methods I
Poster Session | Location: Exhibit Hall III, Level 1 | Conveners: Peter Cheetham, Milan Majoros

M1Po2D-03: Development of an apparatus and process for precision cryogenic thermal contraction measurements

Speaker
James Tuttle

M1Po2D-07: Using cryogenic milling for the recycling of multilayer packaging materials

Speaker
Dr Yi-Chieh Lai

M1Po2D-02: Mechanical properties measuring of low-dimensional samples at cryogenic

Speaker
Ms Haoying Qi

M1Po2D-04: Coefficient of Friction of Polymers in Liquid Nitrogen

Speaker
Joshua Truchon

16:00
