Spåtind 2023 - Nordic Conference on Particle Physics

January 3, 2023 - January 8, 2023

Fefor Høifjellshotell - Norge

Scientific Program

Astroparticle physics

Axions

BSM physics

Collider phenomenology

Collider experimental results

Dark matter experiments and experimental results

Dark matter theory/phenomenology

Dark sector

Detectors, computing and software

Effective field theory

Flavour physics

Future colliders

Gravitation and Gravitational waves

Heavy ion physics

Higgs physics

Neutrino physics

Neutrino theory/phenomenology

Multi-messenger physics

ML and AI for physics

Particle physics outreach and education

Particle physics theory

Precision measurements

QCD

String theory
