

# Spåtind 2023 - Nordic Conference on Particle Physics

## Wednesday 4 January 2023

### Contributed Talks I (17:15 - 19:00)

-Conveners: Anna Onnerstad

time	[id] title	presenter
17:15	[14] Recent ALICE results on charmonium production in Pb-Pb collisions	STOREHAUG, Ida
17:35	[20] Characterizing the initial conditions of heavy-ion collisions with correlations between mean transverse momentum and anisotropic flow	NIELSEN, Emil Gorm
17:55	[25] Multi-particle correlations for the new decade of QGP studies	ZHOU, You
18:15	[26] Spin polarization measurements in relativistic heavy-ion collisions	SARKAR, Debojit
18:35	[30] Precise description of medium-induced emissions	ISAKSEN, Johannes Hamre
