

Session Program

21-22 Jul 2022

110th Plenary ECFA Meeting

Flavour anomalies

CERN, 500/1-001 - Main Auditorium

Friday 22 July

14:00

Flavour anomalies: What can present and future experiments contribute to the understanding of this problem

Session | Location: CERN, 500/1-001 - Main Auditorium

14:00-14:10 Introduction

Speaker
Guy Wilkinson

14:10-14:40 LHCb and Belle-II: present status and expectations

Speaker
Niels Tuning

14:40-15:00 ATLAS and CMS experiments

Speaker
Maurizio Pierini

15:00-15:20 Future fixed target programme at CERN

Speaker
Cristina Lazzeroni

15:20-15:50 The theory view and impact on future high-energy colliders

Speaker
Gino Isidori

16:30
