

EPOG /IPPOG/ around 2000 - 2006

- Young organisation
 - Interest and Enthusiasm
- P → PP
 - Lively discussion
- E → I
 - US was invited
 - Greg Snow was the first US representative

Masterclasses

- An Education Project using particle collisions
 - Started in EPPOG 2005 (UK 1997)
- LEP experiments like ALEPH and DELPHI
 - Explore electrons, muons and quarks (and tau leptons)
 - Hands on CERN (DELPHI)
 - Exists in 15 languages
 - Webby award 2005

Masterclasses II

- Michael Kobel managed to secure funding
 - Dresden University became Masterclass centre
- Article in Physics Education 2007 (EJ, MK ..)
 - Maybe time for another one

From LEP to LHC

- IPPOG and International Masterclasses are still doing fine
- IPPOG, Masterclasses, the experiments - they all grow
 - Outside the Globe – an artistic half scale version of ATLAS
