

# Rare Pion Decay Workshop

UC Santa Cruz  
October 6-8, 2022

In-Person and Remote Participation Options

Topics:

- Rare pion decay studies: past and future
  - PEN / PIENU
  - PIONEER Experiment
  - Technologies for next generation studies
  - Beamline development for next generation studies
- Theoretical motivations
  - Lepton Flavor Universality
  - CKM Unitarity Tests
- Other rare decay measurements
