

The 9th Asian Triangle Heavy-Ion Conference (ATHIC 2023)

Sunday, 23 April 2023 - Thursday, 27 April 2023

JMS Aster Plaza

Scientific Programme

ATHIC 2023 will focus on topics including, but not limited to:

Initial state and thermal equilibrium
Jets and medium response
Heavy quarks and quarkonia
Electromagnetic probes
Collective dynamics
Correlations and fluctuations
QCD phase diagram and extreme states
QGP in small systems
Intense field and vorticity
Hadron interactions and exotics
New theoretical developments
Experimental techniques and future programs

Initial state and thermal equilibrium

Jets and medium response

Heavy quarks and quarkonia

Electromagnetic probes

Collective dynamics

Correlations and fluctuations

QCD phase diagram and extreme states

QGP in small systems

Intense field and vorticity

Hadron interactions and exotics

New theoretical developments

Experimental techniques and future programs
