

## 2nd International Conference on Particle Physics in Memoriam Engin Arık and Her Colleagues

Contribution ID: 62

Type: **not specified**

### Review of LHCb Results

*Thursday 23 June 2011 09:00 (50 minutes)*

The physics case of the LHCb experiment will be introduced after a short description of the present flavour physics and CP violation physics landscape. An overview of the experiment will then be given, with a special emphasis on the detector and trigger performance. A selection of the main results of the LHCb collaboration, based on 2010

data and the currently available statistics recorded in 2011 LHC collisions will eventually be discussed.
