

# The Large Hadron Collider

*Monday 20 June 2011 11:40 (50 minutes)*

The key LHC operating parameters and their impact on potential performance are recalled and a brief summary of the 2010 beam commissioning program is presented. Progress in 2011 has been good and the present performance is discussed. The short and medium term plans and their potential are outlined. Longer term options are touched upon briefly.

**Author:** LAMONT, Mike

**Presenter:** LAMONT, Mike

**Session Classification:** Plenary Talks

**Track Classification:** Particle Factories, Accelerator Physics and future TeV scale colliders
