

Session Program

12-16 Mar 2007

3rd HERA and the LHC workshop

Diffraction

DESY Hamburg

Tuesday 13 March

14:00

Diffraction

Session | **Location:** DESY Hamburg, Lab 1/Sem 4a (VRVS: Sunny)

14:00–14:30

Status of the FP420 Project

Speaker

Stephen Watts

14:30–14:55

Prospects for diffraction and forward physics at the LHC (part I)

Speaker

Kenneth Osterberg

14:55–15:20

Prospects for diffraction and forward physics at the LHC (part II)

Speaker

Monika Grothe

15:20–15:35

FPTRACK++: A tracking algorithm for Forward Physics

Speaker

Will Plano

15:35–16:00

Coffee Break

16:00–16:15

Hector, a fast multi-purpose simulator for particle propagation

Speaker

Xavier Rouby

16:15–16:45

H1 Roman Pots: Experiences and Prospects

Speaker

Micha Kapishin

16:45–17:15

The FP220 Project

Speaker

Christophe Royon

17:15–17:45

Diffractive Structure Functions and Exclusive Production from CDF to LHC

Speaker

Dino Goulianos

18:00
