# Thursday 15 March

09:00

## Parton density functions (Joint session with HFS)

**Session** | **Location:** DESY Hamburg, Lab 1/Sem 4a

09:00–09:20

### Antenna subtraction with hadrons in the initial state

**Speaker**

Alejandro Daleo

09:30–09:50

### A subtraction scheme for jet cross sections at NNLO

**Speaker**

Gabor Somogyi

10:00–10:20

### Update on higher order QCD calculations

**Speaker**

Sven Moch

10:30–11:00

### coffee break

11:00–11:20

### Update on Higgs+multiparton amplitudes

**Speaker**

Vittorio del Duca

11:30–11:50

### Combining QCD and electroweak corrections to Drell-Yan at LHC

**Speaker**

Fulvio Piccinini

12:00–12:20

### QED\*QCD Resummation and IR-Improved DGLAP Theory

**Speaker**

Bennie F.L. Ward

12:30
