

GridKa Tier1 Monthly Status Report

STEINBUCH CENTRE FOR COMPUTING - SCC

Last Month

- ESD migration to tape
 - only minor glitches, but high load on pool servers
- FTS problems
 - troubles during FTS migration to new hardware
 - most recent problems caused by Oracle RAC reboots
- LFC problems
 - stuck processes during restart
 - most recent problems unexplained, maybe related to Oracle RAC reboots

January Downtime

- unfortunately, no possibility to use same date as CERN computing downtime
- 24.01.2011 06:30-10:30 CET
 - work on KIT network components, no outside connectivity for ~2h
- 26.01.2011 08:00-18:00 CET
 - GridKa downtime
 - currently checking if LFC/FTS can be kept online
