

# DMnet internal assembly DMNet

Closed session

in 2rd DMNet International Symposium

Max Planck Insitute for Nuclear Physics, Heidelberg

13rd September 2022

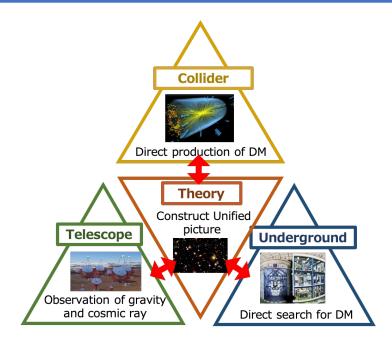

Junji Hisano

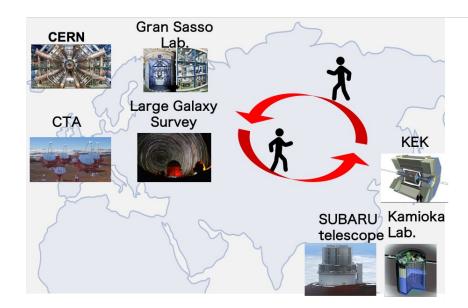

- Check current status of DMNet activities
- Discuss plan of DMNet activities in the period and in the future

#### 2 Purpose of DMNet

#### Fostering international research network to reveal dark matter

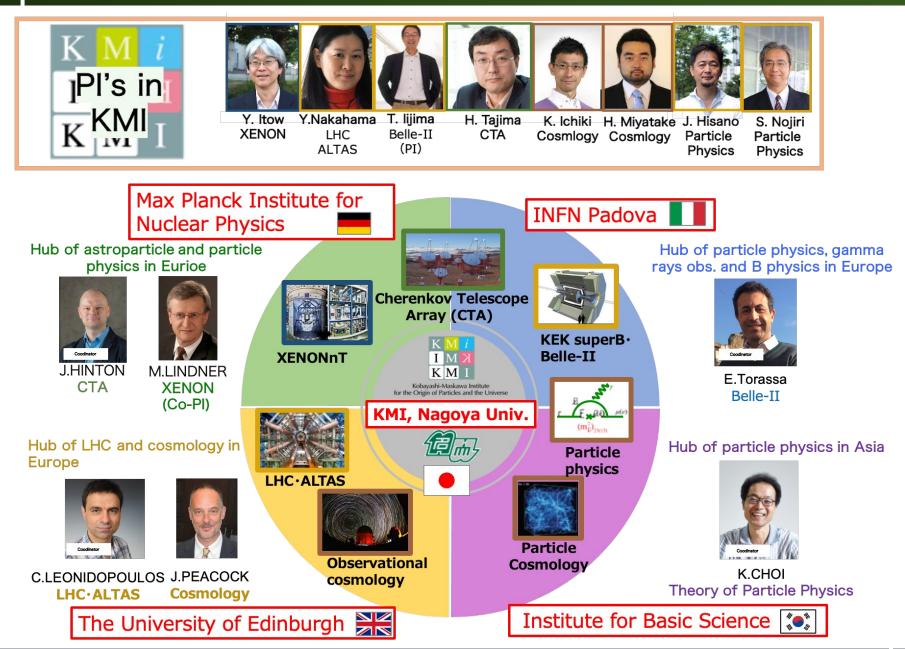

Interdisciplinary approach between theoretical and experimental studies in particle and astro physics Cooperation with research hubs and promotion of intensitve interaction among researchers

- Fostering young researchers across fields and borders
- Construction of research hub of dark matter

#### 2 Our international research network

#### Collaboration

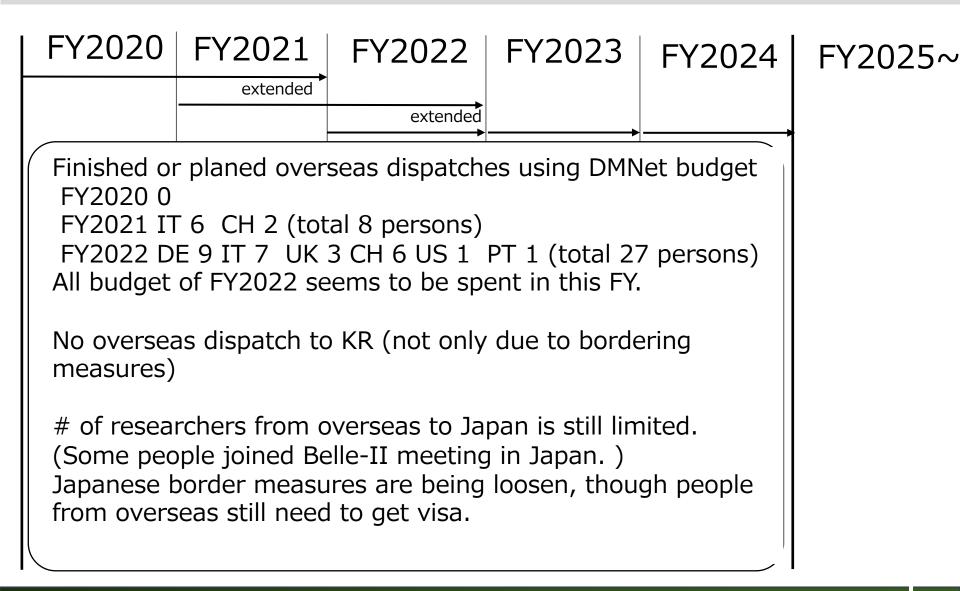

R1: Searches for dark matter at LHC The Univ. of Edinburgh and institutes in UK and Italy. R2: Searches for dark matter at Belle-II **INFN** Padova and institutes in UK, Italy, and Germany. R3: Dark matter direct detection experiments MPI for Nuclear Physics and institutes in Italy and Germany. R4: Observation of gamma rays from dark matter MPI for Nuclear Physics and institutes in Italy and Germany. R5: Studies of dark matter with galaxy surveys The Univ. of Edinburgh and institutes in UK. R6: Theoretical studies of dark matter **IBS** and and institutes in UK, Italy, Germany, and Korea. R7: Planning of future dark matter studies Everyone, especially young researchers, are expected to contribute. Start in 2022.

#### 2 Original plan

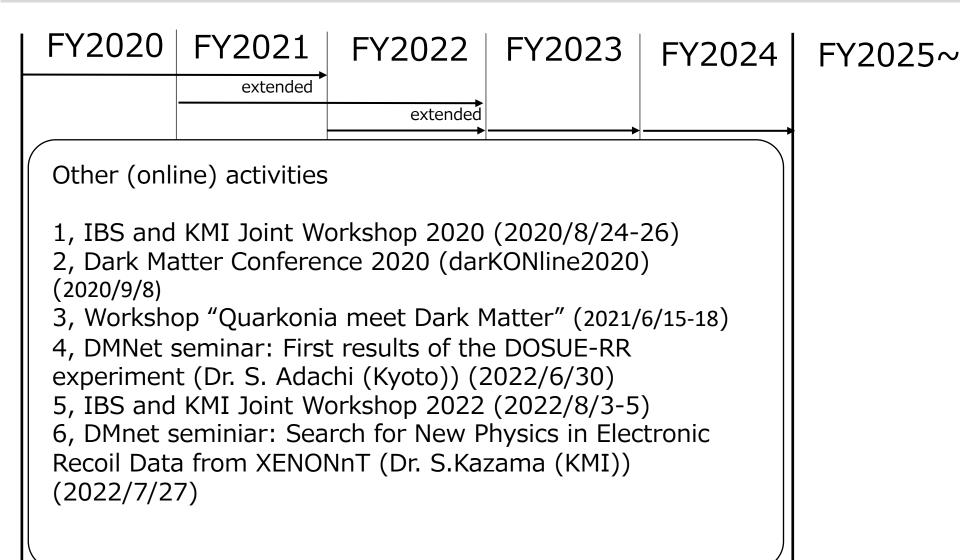

# Before COVID-19

FY2020	FY2021	FY2022	FY2023	FY2024	FY2025~
Kickoff symposium @JP	Symposium of DD and ID @DE	Symposium of LHC and Belle2 @IT, KR, or JP (?)	Symposium of cosmology and particle physics model @ UK or KR(?)	Summary symposium @ JP	DM research hub established in KMI
R1~R6		R7			
		Intermed. Exam by JSPS			
Annual bu This is for dispatch fr Matching f					

# After COVID-19

# After COVID-19

## Near future of DMNet

FY2	2020	FY2021	FY2022	FY2023	FY2024	FY2025~
		extended	extended			Summary
Kickoff sympos @online	sium		(?) Symposium of DD and ID @DE	Symposium of LHC and Belle2 @IT Intermed. Exam by JSPS	WS of cosmology @ UK (?) WS of DM model @ KR(?)	@ JP(?)
Symposium/WS in 2024 will be discussed after intermediated exam by JSPS on May, 2023.						

### Future of resaech hub in Japan

FY2020	FY2021	FY2022	FY2023	FY2024	FY2025~
	extended	extended			DM research
		(?) Budget request of Int. Flavor Physics	Research Center	Budget request of Int DM Research	hub established in KMI
		Research Center in KMI to MEXT/MF	established in KMI	Center in KMI to MEXT/MF	
		DM Research Unit for DD detector development (Itow-san and			
		Schuman) is approved as outstanding unit by Naogya Univ. → Contributes to R7	Image: Second system Image: Se	agreement XENON DARWIN DARWIN WILL DARWIN DARWIN WILL Hisano Hisano Right & Company (又は助別) WILL (文は助別) WILL Hisano Lisan
