From Wastes to soil: Mineral Waste Reclamation Into To Fertile soil materials

Tuesday, 27 September 2022 17:25 (20 minutes)

The consortium led by Edaphos, consisting of soil engineers and mechanical engineers, proposes to process the traditionally landfilled molasse into topsoil-like material using a process called "soil formulation".

Lead team: Edaphos

Presenters:  Mr MACHINET, Gaylord (Microhumus);  Mr RANKOUSSI, Houssam (Edaphos);  Mr CHAPUIS, Lionel (Induni)

Session Classification:  Presentations by the 4 shortlisted companies
