Topic: HEPTECH Board Paper on AIME23

Dear HEPTECH Board Members,

The 7th Academy Industry Matching Event on IT focus topics (AIME23) is planned to be organized in Budapest, Hungary at 24-25 October 2023 by Wigner RCP, CERN, and HEPTECH. The aim of this event is to bring together Academic researchers and Industry experts to share ideas, potential applications and fostering collaborations on the crossroad of natural and artificial intelligence. A half day will be dedicated to scientific computing as a basket of advanced methods which may find application in the industry. The conference will be held in Budapest. The event will be organized in hybrid mode, accepting on-site and on-line participation but preferring on-site presence.
The detailed program will be archived on an INDICO site, similarly to the AIME22: https://indico.wigner.hu/event/1414/
The oral presentations will be recorded and the records will be displayed on the WEB-page after a final edition. The invitation of the keynote speakers is already started, the Chair of the Local Organizing Committee is Antal Jakovac.
We expect about 40-50 participants on-site and about 50-60 participants on-line via ZOOM-connection.

The registration fee is EUR 100, expected to sum up to EUR 5000.
We are working on the involvement of sponsors with contribution EUR 1600 and count with EUR 1600 from HEPTECH.

The expenses of the event consist of the following items:
- renting the venue and related technical costs: Euro 1300
- local technical assistance: Euro 1300
- catering, refreshment: Euro 3600
- preparation, contacts, organization, final editing: Euro 2000
Thereby we ask the HEPTECH Board to cover partly these expenses, which is total of 8200 euro.
Yours Sincerely,

      Antal Jakovác (chair), Péter Lévai and András Telcs, LOC organizers

Budapest, 18 May 2023.
