

Topic: HEPTECH Board Paper on AIME22

Dear HEPTECH Board Members,

The 6th Academy Industry Matching Event on IT focus topics (AIME22) is planned to be organized in Budapest, Hungary at 16-17 November 2022 by Wigner RCP, CERN, and HEPTECH. The aim of this event is to bring together Academic researchers and Industry experts to share ideas, potential applications and fostering collaborations in the newly emerging field of Artificial Intelligence. This year the advertised title will be the following: "Artificial Intelligence and Robotics in Science and Technology". The conference venue will be the Castle Hotel Ibis Budapest. The event will be organized in hybrid mode, accepting on-site and on-line participation.

The presentations are transmitted in a ZOOM-channel, the detailed program will be archived on an INDICO site, similarly to the AIME21 (see the last year event on the WEB-page: <https://indico.wigner.hu/event/1331/>)

The oral presentations will be recorded and the records will be displayed on the WEB-page after a final edition. The invitation of the keynote speakers is already started, the Chair of the Local Organizing Committee is Antal Jakovac.

We expect about 40-50 participants on-site and about 50-60 participants on-line via ZOOM-connection.

The expenses of the event consist of the following items:

- renting the venue and related technical costs: Euro 1000
- local technical assistance: Euro 1000
- catering, refreshment: Euro 2000
- preparation, contacts, organization, final editing: Euro 2000

Thereby I ask the HEPTECH Board to cover partly these expenses, which is total of 6000 euro.

Yours Sincerely,

Antal Jakovac and Peter Levai, organizers

Budapest, 08 June 2022.
