

Slack persistent message history

- Repeatedly mentioned in this workshop
- Common “fund” the community contributes to?
 - Would need to check with CERN finance if this is even possible
- Currently ~65-100 active users per month
- Standard pro license 6.75 US\$ when paid yearly
 - $= 6.75 * 65 * 12 = 5265$ US\$
- Possible [educational discount](#) applicable?
 - Would need to check with Slack & CERN purchasing
 - $= 5265 - 85\% = 790$ US\$
- Alternatives
 - Move to CERN Mattermost
 - Need to check if external accounts have access; Before this was prohibitive
 - Of course we would lose the already acquired community and history (~500 users) on Slack
