Please note that some of the sections may not be relevant for every topic.

Suggestions on what to do:

- [Making low-cost and widely accessible outreach content]

Suggestions on what NOT to do:

- [Do not ask 1000 euros to participate to your outreach activity]

Useful tools:

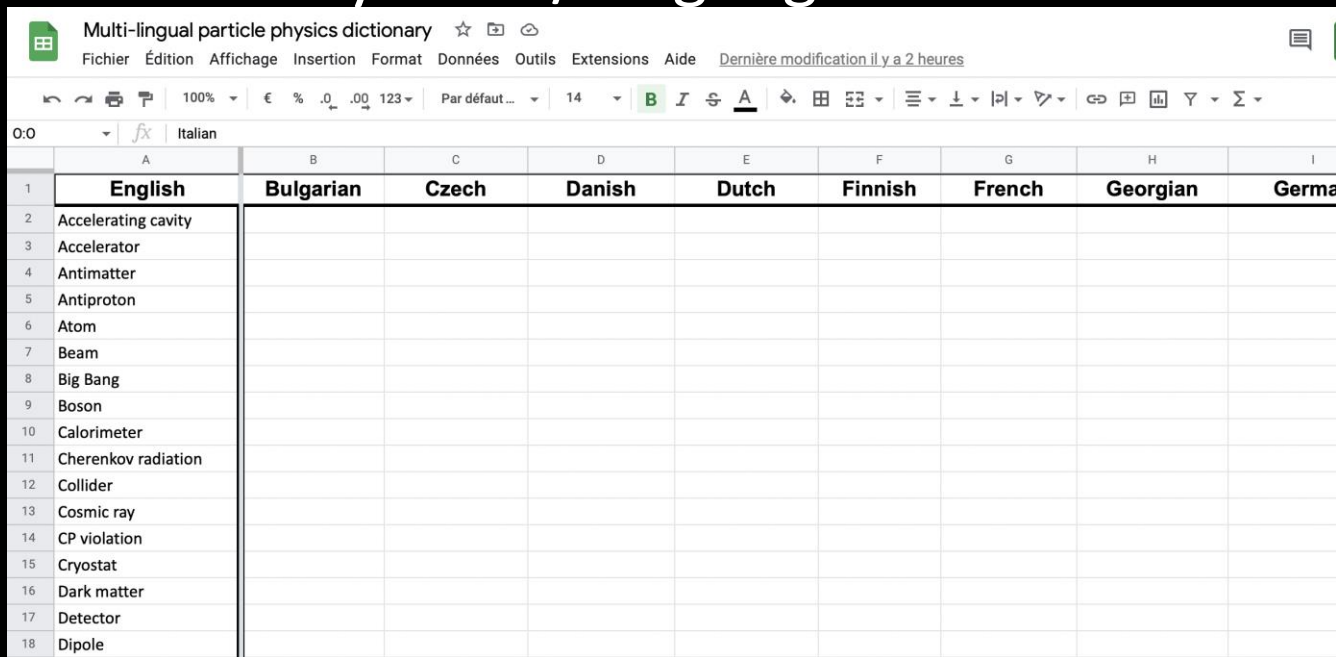

Goals

- List of topics to be addressed ✓
- List of experts, useful resources to help establishing guidelines, and goals ✓
- Actually writing the guidelines
- Release the guidelines in a paper

What to do on your way home?

Help us building our multi-lingual dictionary!

Feel free to add any word/language!

The screenshot shows a Google Sheet titled "Multi-lingual particle physics dictionary". The sheet has a menu bar with options like "Fichier", "Édition", "Affichage", "Insertion", "Format", "Données", "Outils", "Extensions", and "Aide". Below the menu bar is a toolbar with various editing tools. The sheet is currently displaying a table with the following structure:

	A	B	C	D	E	F	G	H	I
1	English	Bulgarian	Czech	Danish	Dutch	Finnish	French	Georgian	German
2	Accelerating cavity								
3	Accelerator								
4	Antimatter								
5	Antiproton								
6	Atom								
7	Beam								
8	Big Bang								
9	Boson								
10	Calorimeter								
11	Cherenkov radiation								
12	Collider								
13	Cosmic ray								
14	CP violation								
15	Cryostat								
16	Dark matter								
17	Detector								
18	Dipole

Summary slide (as requested by Pedro)

- We all want a **more diverse, inclusive, and accessible** community
- To do our tiny share, we are **preparing guidelines** covering different topics to reach this goal
- We **worked hard** already, and will be working even harder before the next collaboration meeting
- We need help to build our **multi-lingual particle physics dictionary**

Thanks!
