Session Program

2–4 May 2023

PV2023: Adding value (to) and preserving Scientific & Technical data

Posters minute madness Presentation

CERN, 500/1-001 - Main Auditorium

Tuesday 2 May

17:30

Posters minute madness Presentation

Session | **Location:** CERN, 500/1-001 - Main Auditorium | **Conveners:** Mitcham, Jenny, Duellmann, Dirk

17:30–17:31 **[video] Enabling data discovery in big datasets**

Speaker
de Teodoro, Pilar

17:31–17:32

[video] Using the REGARDS Framework for the renewal of the CNES archive system

Speaker
Petiton, Julien

17:32–17:33

ERS-1/2 SAR and ENVISAT ASAR CEOS-ARD NRB Product Development Project

Speaker
Haria, Kajal

17:33–17:34

Workforce data curation training with AI considerations in Federated Data Repositories by netcdf-empowered community informatics at OKD edge site

Speaker
Branch, Benjamin

17:34–17:35 **Scoping Net Zero Research Computing**

Speaker
Townsend, Poppy

17:35–17:36 **Fengyun meteorological satellite global observation and applications**

Speaker
Xian, Di

17:36–17:37

Implementing FAIR principles in the IPCC context to support open science and provide a citable platform to acknowledge the work of authors.

Speaker
MacRae, Molly

17:37–17:38 **Getting Out The Data - Fighting The Latency Dragon**

Speaker
Wehn, Charlotte

17:38–17:39 **Preserving an endangered society: the case of Maldives**

Speaker
Giaretta, David

17:39–17:40 **Developing an OAIS based Interoperability Framework**

Speaker
Giaretta, David

17:40–17:41   **Towards a sustainable data and knowledge preservation**

Speaker
Nicolet, Aurèle

17:41–17:42
Data standardization and integration for maintenance of Critical Infrastructure

Speaker
Thaduri, Adithya

17:42–17:43
TFCat (Time-Frequency Catalogue): JSON Implementation and Python library

Speaker
Cecconi, Baptiste

17:43–17:44
Design and Implementation of FENGYUN Meteorological Satellite Archive Data Migration Mission

Speaker
Xu, Zhe

17:44–17:45
CryoSat Ice Baseline-E: Operational & Reprocessed Data Quality Control

Speaker
Toonen, Liv

17:45–17:46
Converting a Traditional Space Science Operations Center to a Cloud-Based Architecture

Speaker
Mukherjee, Joey

17:46–17:47   **Petabyte scale, OAIS/ISO 16363 conformant archive**

Speaker
Giaretta, David

17:48–17:49
In-Situ and IoT data inventorisation in support of earth observation data analysis

Speaker
Pruin, Bernard

17:49–17:50
Adding Value to ESA Heritage and Third-Party Mission Archived Datasets via Reprocessing: ATSR and ALOS

Speaker
Done, Fay

17:50–17:51
Computational appraisal for enhancing data value discovery: recent researches and lessons learned for scientific data governance

Speaker

Shabou, Basma Makhlouf

17:51–17:52

Focusing on Scalable Citations to Improve Data Usability and FAIRness

Speaker

Agarwal, Deborah

17:52–17:53

[remote] Developing a Prototype of Library Dataset supporting Services

Speaker

Garcia, Marcelo

18:00

17:51–17:52

Focusing on Scalable Citations to Improve Data Usability and FAIRness

Speaker

Agarwal, Deborah
