“There is nothing more enriching and gratifying than learning.” [Fabrizio Gianotti, CERN Director-General]

Every year, CLRN offers various professional development programmes for teachers to keep up-to-date with the latest developments in particle physics and related areas, and experience a dynamic, international research environment. All programmes are facilitated by experts in the field of physics, engineering, and computing and include an extensive lecture and visit itinerary.

Furthermore, CERN's teacher programmes enable you to meet with teaching colleagues from your country or from all around the world. We offer teacher programmes in either English or in one of the national languages of CERN Member States, lasting between 3 days and 2 weeks.
