(requires you to register your device, but should work for the duration of the conference).

PASCOOS 2023

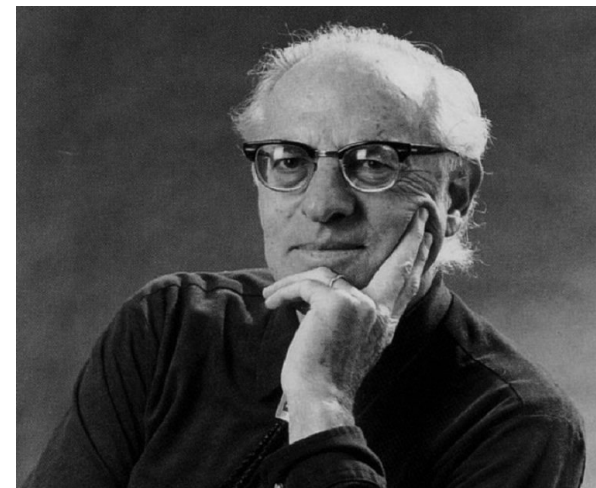

Frederick Reines, UCI's founding dean of Physical Sciences and co-recipient of the 1995 Nobel Prize in Physics for the first direct observation of neutrinos.

PASCOOS 2023

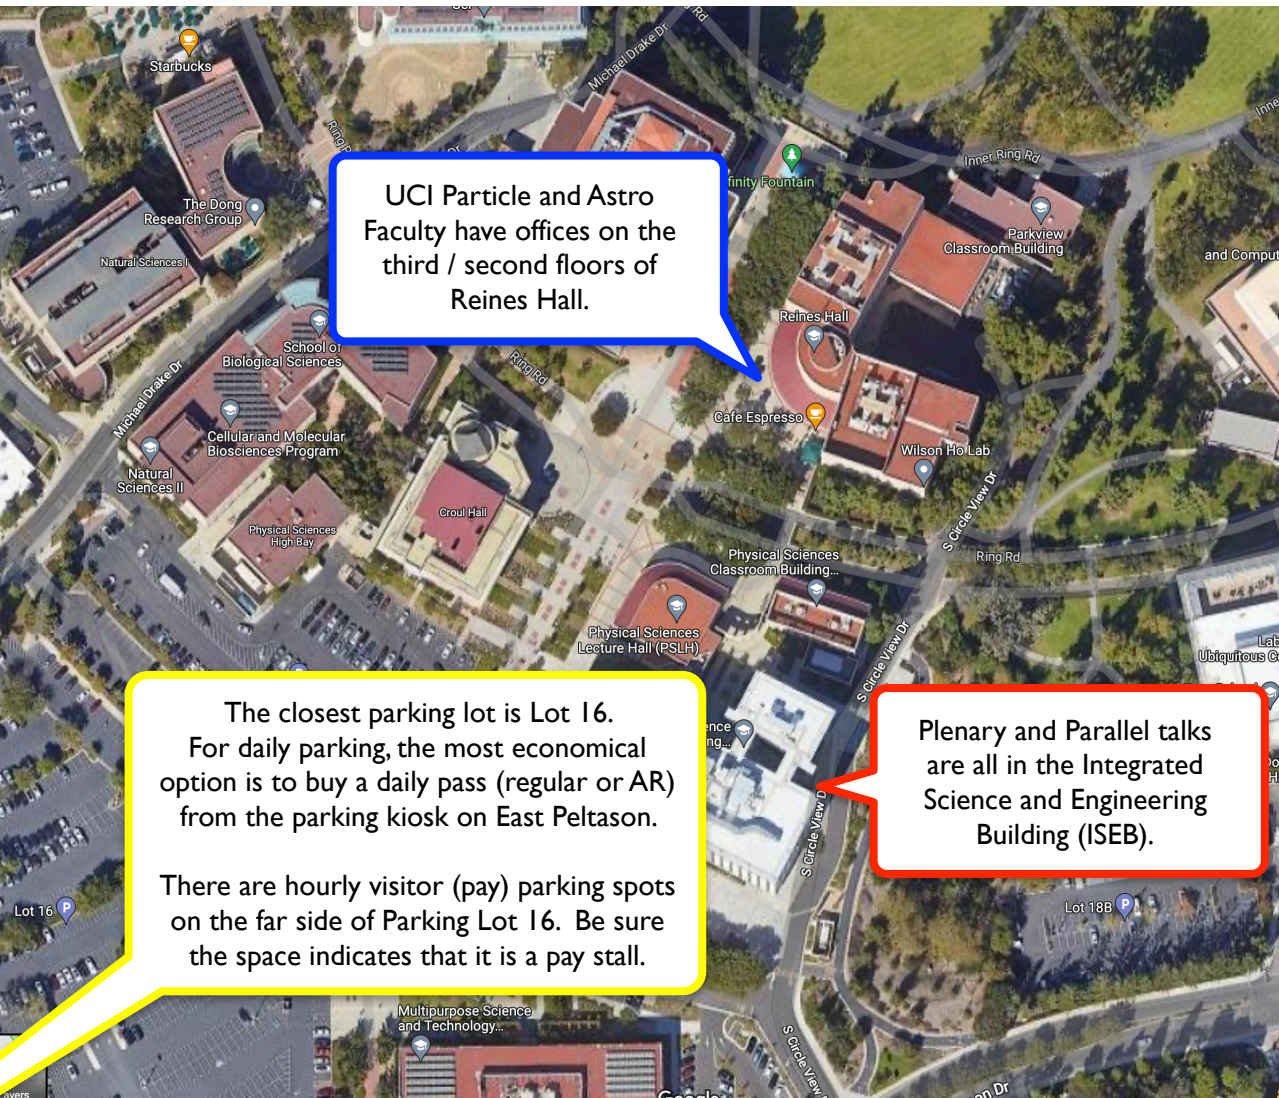

UCI Particle and Astro Faculty have offices on the third / second floors of Reines Hall.

Plenary and Parallel talks are all in the Integrated Science and Engineering Building (ISEB).

Frederick Reines, UCI's founding dean of Physical Sciences and co-recipient of the 1995 Nobel Prize in Physics for the first direct observation of neutrinos.

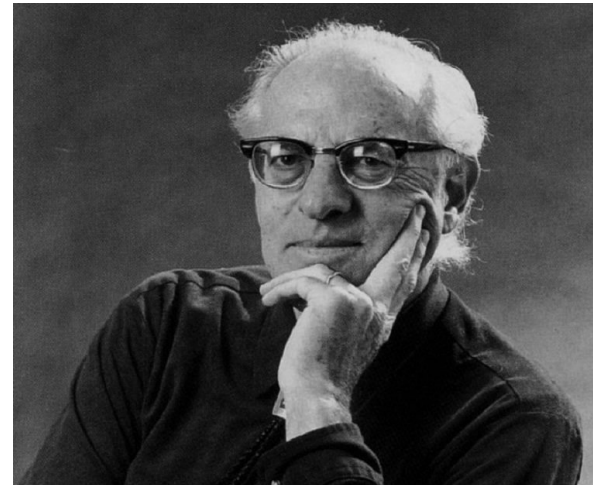

PASCOOS 2023

UCI Particle and Astro Faculty have offices on the third / second floors of Reines Hall.

The closest parking lot is Lot 16. For daily parking, the most economical option is to buy a daily pass (regular or AR) from the parking kiosk on East Peltason. There are hourly visitor (pay) parking spots on the far side of Parking Lot 16. Be sure the space indicates that it is a pay stall.

Plenary and Parallel talks are all in the Integrated Science and Engineering Building (ISEB).

Frederick Reines, UCI's founding dean of Physical Sciences and co-recipient of the 1995 Nobel Prize in Physics for the first direct observation of neutrinos.

Phoenix Food Court
Einstein Bagels

Brandywine Food Commons
(Buffet-style Cafeteria)

There are a variety of options both on and off-campus within 15 minutes walk. If in doubt, please find/follow a local.

Phoenix and UTC all have plenty of outside tables in common spaces to which one can bring food from wherever one likes.
