

UCLA Dark Matter 2023

Saturday 1 April 2023

SESSION 17: Direct detection: Ultra-Light DM (Axions, ALPs, WISPs) searches-1 (CHAIR: Reina Maruyama -Yale University) - PAB- 1-425 (08:15 - 09:30)

time	[id] title	presenter
08:15	[289] An overview of Axion Dark Matter eXperiment: current status and future plans	ZHANG, Dan
08:30	[253] Low Mass Axion Searches from ABRACADABRA Results to the DMRadio Program	SIMANOVSKAIA, Maria
08:45	[306] Searching for axion-like dark matter with precision NMR: the Cosmic Axion Spin Precession Experiments	SUSHKOV, Alexander
09:00	[273] Dark Matter Axion Search Using 18T High Temperature Superconducting Magnet	Prof. YOO, JONGHEE
09:15	[208] MADMAX: post-inflationary axion dark matter search	LEE, Chang
