CCE workshop “Cosmology and Particles”, 12-14 Sep 2022, Chillán

Dear Participant,

Thank you for registering. You can now find the preliminary program at <https://indico.cern.ch/event/1189812/timetable/#all.detailed>. Please let us know any inconveniences.

When preparing your talk, please consider that the participants have quite a mixed background, from mathematical physics via particle phenomenology to cosmology, so an emphasis on motivation and general setting of your work will be much appreciated.

For a map of the conference venue, as well as some indications about locations (hotels, restaurants) in Chillán, see the material linked on the main page <https://indico.cern.ch/event/1189812>.

The talks and coffee breaks will take place in the room LC1, which is situated in the building "Laboratorios centrales de computación" on the UBB campus Fernando May. A bus will leave each morning at 9:00 in front of the hotel "Las Terrazas", and drop you off at the conference venue. In case you miss that bus and prefer to not call an Uber/Taxi, the walk is about 30min (2.5km).

The excursion might entail a dip in thermal outdoor pools, so please pack your swimwear (incl swimming cap).

Looking forward to an inspiring meeting, see you soon,

The CCE workshop local organizing team (contact: [email]@ubiobio.cl)
