

LHCb Upgrade Electronics

Meetings in 2011:

14th April

9th June

11th August

13th October

15th December (changed from 8th)

News

ATLAS/CMS Upgrade workshop 9 – 11 March at CERN:
<https://aces.web.cern.ch/aces/aces2011/ACES2011.htm>
We are welcome to attend!

Power and Opto Working Groups in days before ACES:
Also VERY useful for us, please attend!

Next meeting (April)

Proposal to concentrate on power distribution

For example:

Do we need linear voltage regulators?

Can we use the new DC-DC convertor?

What power supplies will we use?

Will we need more power for upgrade?

Some info on DC-DC is on agenda page

Will ask for a short presentation from each sub-detector
