Industrial Data Scientist

Tuesday 20 June 2023 13:15 (20 minutes)

Justin Furlotte is a Data Scientist with Fiddlehead Technology in Moncton, New Brunswick. His academic background included a BSc in Mathematics-Physics from the University of New Brunswick, followed by a MSc in Mathematics at the University of British Columbia, where he researched the quantum Hall effect and quantum lattice systems. Justin has also previously worked with a thermal analysis company called C-Therm Technologies in Fredericton, New Brunswick, performing computational physics as a Research Scientist. Today, Justin still uses mathematics on a regular basis and spends most of his time creating statistical forecasts on the sales data of large clients in the food and beverage industry.
