

2023 CAP Congress / Congrès de l'ACP 2023

Monday 19 June 2023

(DCMMP) M3-8 Materials Physics | Physique des matériaux (DPMCM) - UNB Kinesiology (16:00 - 17:45)

-Conveners: Kristin Poduska

time	[id] title	presenter
16:00	[3799] (G*) Diamond Nanothermometry Using a Machine Learning Approach	STONE, Dylan
16:15	[3757] (G*) Vibrational Modes in High-Configurational-Entropy Rocksalt Oxides	WILSON, Connor
16:30	[3917] WITHDRAWN - Nucleation kinetics in supercooled ZnSe: Computer simulation data corroborate the validity of the Classical Nucleation Theory	Dr SEPARDAR, Leila
16:45	[3728] Stability of carbon-rich materials for climate-change-mitigation applications	PODUSKA, Kristin
17:00	[3984] Role of Dopant Structure and Strength in the p-Doping of Organic Semiconductors	Prof. SALZMANN, Ingo
17:15	[3994] Optical Saturation Produces Spurious Evidence for Photoinduced Superconductivity in K_3C_{60}	DODGE, Steve
