

# Paella (and Opencast) at CERN

25<sup>th</sup> August 2022

# Paella (Opencast) at CERN: timeline

# Architecture: TaaS as core element of Weblecture service

# Weblecture service as example

- Paella 6.5.5
  - <https://video-player-sec.web.cern.ch/?mode=contribution&year=2022&id=1135177c9&origin=ceph>
- Paella 7:
  - <https://weblecture-player.web.cern.ch/?id=1135177c9&year=2022>
    - PR: plug-in Matomo (developed by Rene)
    - PR: change request to add authentication for captions (same thing we did on Paella 6)

# Discussion

- Further relations
  - Consultancy support (Opencast related)
  - Consultancy Paella support (not Opencast related)
  - Bringing an UPV engineer – possible opening in January 2023.

# Final words

**Big thanks** to Carlos and especially Miguel Angel for their collaboration and hard work these last 2 years.
