

XII International Conference on New Frontiers in Physics

10-23 July 2023, OAC, Kolymbari, Crete, Greece

Information Bulletin #1

We are pleased to announce the XII International Conference on New Frontiers in Physics (ICNFP 2023), which will be held in Kolymbari (Crete Island, Greece) from 10th to 23rd July 2023. The conference will be hosted at the Conference Center of the Orthodox Academy of Crete (OAC), situated in an exceptionally beautiful location just a few meters from the Mediterranean Sea.

The conference will consist of invited and contributed talks and poster presentations, beginning with the student lectures on Monday afternoon, July 10th and ending on Saturday afternoon, July 22nd. July 23rd is the departure day.

The conference will be held in a hybrid format with both physical presentations on site and virtual via ZOOM platform.

Scientific topics

While the main body of the conference builds mainly on the below-mentioned topics, presentations on yet different disciplines are invited and vary every year. Such topics include nuclear structure, atomic physics, plasma physics, physics applications, mathematics, computing science, etc.

- High Energy Particle Physics
- Heavy Ion Collisions and Critical Phenomena
- Quantum Physics, Quantum Optics and Quantum Information
- Cosmology, Astrophysics, Gravity, Mathematical Physics

Workshops and special sessions will be also organized during the conference. The full list of scientific topics will be published on the conference webpage.
