Measurements of the CP structure of Higgs-boson couplings with the ATLAS detector

Tuesday, 28 March 2023 12:10 (20 minutes)

Studies of the CP properties of the Higgs boson in various production modes and decay channels are presented. Limits on the mixing of CP-even and CP-odd Higgs states are set by exploiting the properties of diverse final states.

Submitted on behalf of a Collaboration?

Yes

Participate in poster competition?

No
